DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 39****[Docket No. FAA-2009-+++++; Directorate Identifier 2009-NM-049-AD]****RIN 2120-AA64****Airworthiness Directives; Learjet Model 60 Airplanes****AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for certain Learjet Model 60 airplanes. This proposed AD would require revising the Tire - Servicing section of the airplane maintenance manual and revising the Tires Limitation section of the airplane flight manual, to incorporate revised procedures for servicing tires and checking for proper tire inflation. This proposed AD results from a report of the main landing gear tires blowing out during a takeoff roll. We are proposing this AD to prevent tire failure, which could result in failures of the braking and thrust reverser systems. In a critical phase of operation such as takeoff, loss of airplane control may result.

DATES: We must receive comments on this proposed AD by [insert date 45 days after date of publication in the FEDERAL REGISTER].

ADDRESSES: You may send comments by any of the following methods:

- Federal eRulemaking Portal: Go to <http://www.regulations.gov>. Follow the instructions for submitting comments.
- Fax: 202-493-2251.
